

# Princess Tiara

1) Print or trace the tiara and jewel shapes on to different coloured or patterned papers & then cut them out, or use white paper and colour it in yourself

2) Cut out and glue the jewel shapes in the right places (where the dotted lines are).

3) Decorate any way you like. Consider jewel stickers, pom poms & glue, coloured paper shapes, glitter sparkles, sequins

4) Cut out the extra band length and staple to the tiara in the right places so it fits the child's head. If it's too short, cut extra length of the same width & staple on to fit.

**Variation:** An adult can cut the jewel shapes out from the tiara itself with a cutting mat & knife to make holes and then give to the child to cut out the outside and decorate
